Syosset, NY 11791

Dear Mr. Levitt

Having been a recent graduate from the Culinary Academy of Long Island, I found that my knowledge and experience gained while attending the school has helped me achieve the executive chef position currently at Main 415 Restaurant. The school helped shape my confidence needed to succeed in running my own kitchen and staff. Without the help of my instructor from the academy, Chef Brett, as well as the administration, I would not be equipped to handle this position adequately.

Due to the outstanding relationships that I have acquired through my experience at the school, I would like to invite any current students to complete their internship at my facility. By doing so I can help teach other students what you have taught me.

Thank You

Chef Seth Sloan
